

Best Practices

1. Spoken English Crash Courses

Goal: The course aims to enhance student's language proficiency. In an age of globalization, English language competency and communication skills have acquired great significance. English language skills and communication skills are prerequisites for better employment. The course intends to equip the students with these required skills to increase their employability. The course aims to instil necessary confidence in the students so as to enable them to speak and write in English fluently.

Context: Most of our students come from Urdu medium. They find it difficult to speak in English fluently. They even find it difficult to grasp the subject knowledge. In the background of this scenario, the Department of English took the initiative to start this Spoken English Crash Course for the students weak in English. The course instils the necessary confidence in the students.

Practice: Spoken English Course is an innovative practice of the college especially for the benefit of the students. The course is designed by the Department of English. Required emphasis and weightage is given to units such as grammar, phonetics, communication skills etc. Faculty of English organizes the programme and engage lectures. Schedule of the course is displayed on the notice board and the students are informed accordingly.

Prior to the course, students were asked to speak on few topics in the respective classes by the respective English teachers. Students not well conversant in English were identified and given training.

Evidence of Success: Selected students attended the ten days Spoken English Crash Course. After the course, students were given some topics to speak so as to test their speaking skills. It was observed that their speaking skills improved drastically. They were able to converse in English with confidence.

2. Students' Aid Fund:

Goal: The college has established Students' Aid Fund to support poor and needy students. Deserving students are helped financially to pay the admission fee. This is to ensure that no student is deprived of education for want of money.

Context: The college is located in a predominantly Muslim area, which is socially and economically backward. The parents of the students belong to low-income strata, hence find it difficult to provide good education to their wards. Apart from Govt. EBC support, the teacher and management of the college

personally contribute to the Students' Aid Fund. This fund enables the students to pay their fees also.

Practice: The college appointed In-charge of Students' Aid Fund. Students applying for the benefit of SAF must satisfy following criteria:

- a) Students should be economically backward.
- b) They should apply in prescribed format for SAF.
- c) 75% attendance is compulsory.
- d) In-Charge reserve the right to verify the claims of an applicant.

In-Charge of SAF scrutinizes the application and provides help to the deserving students.

Evidence of Success:

57 students got benefited from Students' Aid Fund this year. This probably also helped in checking the drop-out rate of the students.

i) Course in Communication Skills

The Department organized Course in Communication Skills for first year students in collaboration with Department of English, Dr. Rafiq Zakaria College for Women, Aurangabad. Training was imparted by the faculty of English of both the colleges. Students acquired listening, reading, writing and speaking skills during the course. It was conducted from 07 December 2020 to 12 December 2020.

Though a preposition is usually placed before an also appear sometimes in other positions.
Dr Siddique is the person I spoke to.
What is the documentary on?
Gita needed something to wipe the plan.
Simple prepositions consist of one word. Some are:

at	above	across	after
among	around	at	before
with	beside	besides	between
vs	during	for	from
to	than	on	inside
under	until	through	throughout
		up	

Complex or phrase prepositions consist of more than one word. For example:

along with	away from	because of
except for	together with	instead of
in spite of	according to	in view of
but for		on account of

There are other words that look like prepositions but are used as prepositions. These include:

having	concerning	excepting	in
like	minus	near	per

Prepositions can have different functions: time, place, purpose, direction, movement, comparison, comparison, source and cause. Sometimes when the prepositions have these functions they are used as prepositions.

Example: Saadia sits between Saeed and Usman. (direction)
They went from Lahore to Islamabad. (direction)
Father returned at 6 o'clock. (time)
The road has been blocked from procession. (movement)
We went to the market for vegetables. (purpose)
Jaya ran the house with a knife. (comparison)
Let's go to Mumbai by bus. (direction)
In spite of the heat, the children are toasty. (cause)
The bird looks like a lion. (comparison)
Leda does all her work with great care. (purpose)
They got water from the river. (source)

Some verbs, adjectives and nouns take prepositions after them. You must learn to:
